# HIGHWAY PUNCH CUTTING EDGES

## Sabre Cutting Edges with Hardox Shield and Carbide Insert

**2X More Abrasion Resistant**

**3X More Impact Resistant**

### Features & Benefits:

- Heavy Duty Edges have 50% more carbide than standard inserts.
- 55°-90° range of attack angles
- Light-weight built-in fully welded cover plate protects fragile carbide inserts with Hardox impact resistant steel and eliminates the need for a steel cover blade.
- 2X More Abrasion-Resistant and 3X More Impact-Resistant than traditional blades.
- Easy to install with 3 or 4ft non-interlocking sections.

<b>155-08192</b>	9' Plow	108" x 10" x 1-1/2"	11 Slot	<b>\$601.88</b>

## Benefits:

- Cleans slush thoroughly
- Offers great abrasion resistance
- Eliminates rust stains on cement
- Ideal for lighter snow clearing
- Conforms easily to sensitive surfaces
- Stops damage to brick pavers & cobblestone
- Flexible rubber absorbs impacts
- Reduces road shock
- Popular with municipalities

Most Rubber cutting edges include a bolt & nut mount kit. If you need additional bolts see below.

## LED Light-up Blade Guides

- Light-up design makes it easier to see your equipment in low visibility conditions.
- Includes wiring harness that is 12 ft. per side with a pre-terminated male bullet connector and ring terminal to connect to the LED guides.
- Uses a stud mount but an optional horizontal mounting bracket is available.
- Compatible with most snow plows and truck bumpers.

These new Illuminated LED Guides make it easier to you see your snow plow or truck bumper in low visibility situations. Whether it's the dead of night or the middle of a blizzard, the light-up guides give you superior control over your equipment. Their unique look is also an eye-catching way to stand out from the competition.

# Plow Storage Quick Mount Plow Cart™

Bring your plow to the truck!

The Quick Mount Plow Cart's simple T-design and casters, make the removal of your plow easy and effortless. You no longer need to lift or try to drag around the plow. Plus, by being able to remove your plow in minutes, you can save the life of your truck by stopping the wear and tear of having the plow on during normal everyday use! Easy to assemble, easy to store, and easy to take with you wherever you may need it. Some units incorporate a small hydraulic jack to help in aligning plow.

## Carbide Anti-Wear Plates

Extend life to your cutting edge

Carbide Anti-Wear Plates mount over your existing blade, wearing the hard carbide edge instead of your steel cutting edge.

### Carbide Anti-Wear Plates

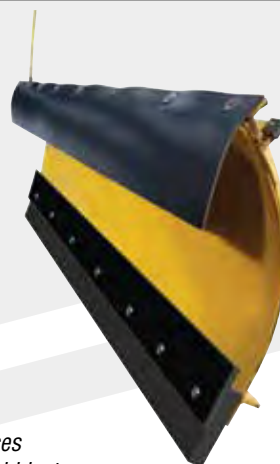

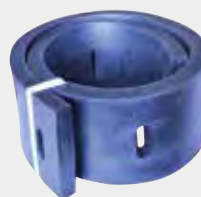

- Extend life to your cutting edge
- Reduce blade wear
- Reduce blade changes
- Two sizes: 6" x 6" or 15" x 6"

155-0601	Carbide Wear Plate, 6" x 6" Pre-punched for 1/2" bolts. Fits: 155-9010/9015/9017/9020/9025/9030/9035/9040	\$64.80
256-0652	Carbide Wear Plate, 6" x 6", Pre-punched for 5/8" bolts Fits: 155-9045/9050/9055/9002/9003/9004	\$63.00
155-1510	Carbide Wear Plate, 15" x 6", Pre-punched for 1/2" bolts Fits: 155-9010/9015/9017/9020/9025/9030/9035	\$139.59

## Rubber Cutting Edges

All edges are furnished with 3" long slots for adjustment as the edge wears.

### Benefits:

- Cleans slush thoroughly
- Ideal for lighter snow clearing
- Conforms easily to sensitive surfaces
- Stops damage to brick pavers & cobblestone
- Flexible rubber absorbs impacts

Rubber cutting edges include a bolt & nut mount kit.

## Hose Conversion Kit for Meyer

BEFORE

AFTER

Changing your swivel fittings to rigid fittings brings you these advantages...

- Stop the breakage and leaks from swivel fittings
- Cleaner look - No more hose left on truck when plow is off.
- Standardize all your pumps so they are interchangeable (even E-47 to E-60) by using this conversion.
- Easier to Connect or Disconnect Hoses

If you need a quick coupler, order 155-0377 separately

155-9380 Kit Includes (2) 155-9390 hoses; (3) 256-0370 tall elbow; (1) 256-0365 short elbow; (2) 324-0128 dust plug.

PART NO.	DESCRIPTION	PRICE

**MEYER® E-47,E-47H  
& E-57,E-57H Pumps**

The complete E-47 & E-57 units are no longer available. All complete units are now replaced with the E-58H.

**For E-58H Parts  
See Page 24**

The replacement parts listed for the motor (50) and the pump assembly (66) are for the E-47 only. All other parts shown will fit the E-47 and E-57. A retro fit kit is available to convert your pump to an E-57. (Part #155-9802) This kit will increase the speed of your pump assembly.

**Parts fit all E-47, E-47H, E-57, E-57H units unless noted**

## Service Manual for Meyers E-60 Quik-Lift™ Pumps

Part No. 155-9960 \$6.62

50A 155-9885  
Double Stud  
Motor with  
ground wire

Mill Supply's Double Stud Motor (155-9885) eliminates the motor ground problem on the E-60 units. With the single stud motors your ground attaches to the aluminum sump base, and has to travel through the base to the motor. With this new Double Stud Motor, the ground attaches directly to the motor allowing it to run more efficiently.

*Brushes are easier to change*

This motor also has two holes in the end cap so whether you are replacing the single stud motor or the double stud motor you can always have the drain face down.

### Custom Molded Lift Cover

155-9759

Custom Molded Cover \$21.11

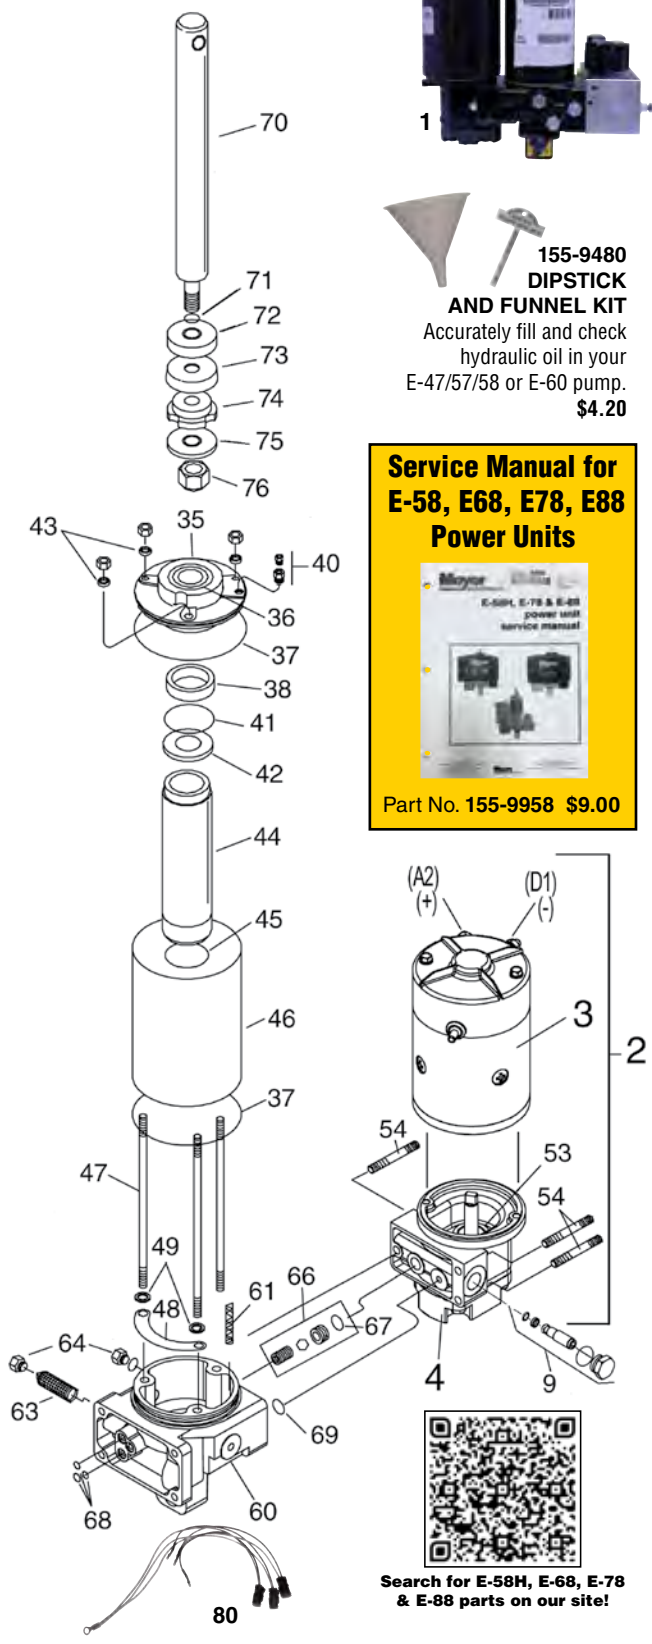

155-9760

Lift Cover Strap \$10.31

Both parts are needed for the cover. Each sold separately.

E-58H Meyer Hydraulic Custom Molded Lift Cover & Lift Cover Strap protect your unit from the harsh elements. Designed for durability and functionality the sub-zero composite fits snugly over the hydraulic unit for maximum protection. All unit maintenance and feature functions can be accessed conveniently while the cover is on. Fits Meyer E-58H Hydraulic units only. Must order Lift Cover Strap (155-9760) when ordering cover.

## Carbide Anti-Wear Plates

### Extend life to your cutting edge

#### Carbide Anti-Wear Plates

- Extend life to your cutting edge
- Reduce blade wear
- Reduce blade changes
- Two sizes: 6" x 6" or 15" x 6"

Edges mount over your existing blade, wearing the hard carbide edge instead of your steel cutting edge.

**See Plow Manufacturer Pages for Fitment Details****Carbide  
Insert**

155-0601	- Carbide Wear Plate, 6" x 6", Pre-punched for 1/2" bolts.	\$64.80
256-0652	- Carbide Wear Plate, 6" x 6", Pre-punched for 5/8" bolts	\$63.00
155-1510	- Carbide Wear Plate, 15" x 6", Pre-punched for 1/2" bolts	\$139.59
256-1558	- Carbide Wear Plate, 15" x 6", Pre-punched for 5/8" bolts	\$139.59

# Meyer Plow Maintenance

## FLUSHING OF ANGLING RAMS

Should be done after pump has been rebuilt or if fluid is contaminated or incorrect.

- This applies to plows with one hose on pump and one hose on plow.
  - Units with two hoses on plow can use this same procedure.
  - Procedure does not work with every brand of plow.
1. With plow disconnected from truck, position plow with moldboard face down. ("A" frame up)
  2. Connect angle hose and elbow together (or connect both hoses together).
  3. Angle plow manually all the way to the right (pull "A" frame to the right).
  4. Disconnect coupler. Using an extra coupler, couple opposing ends thus letting fluid come out of hose. If your unit has two hoses on plow, drain fluid from passenger side hose.
  5. Using an empty container, (i.e. milk jug, oil bottle) place drivers side hose in bottle and manually angle plow to the left. This forces old oil out of cylinder. Let all oil drain from hose.
  6. Both angling cylinders should now be empty. - **See below if fluid is contaminated or incorrect.**
  7. Remove extra coupler that was installed in step 4.
  8. Reinstall plow on truck and correctly connect hoses to pump.
  9. Make sure correct amount of fluid is in pump.
  10. Raise plow 2 inches off ground.
  11. Using control in truck, angle plow left and right a few times to refill cylinders. (See our part 155-9485 for a 'one-man-operation' using remote switch harness)
  12. Lower plow and recheck fluid level in pump.

If fluid in angling rams is contaminated or incorrect you can also flush them in the following manner:

Once rams are empty (step 6), take a bottle with fresh plow fluid and put drivers side hose in bottle making sure hose is submerged. Now manually angle plow to the right. This sucks the new fluid into the ram. Remove the extra couplers that were installed in step 4 and connect the angling rams together. Now manually angle the plow left and right to flush both rams. Repeat starting with step 3 above.

## DRAINING FLUID FROM PUMP

Should be done before every season

**For Meyer® E-47 units with drain plugs and all E-60 units**

1. With ram in down position, remove filler plug from top of pump and then remove drain plug and let fluid drain out.
2. Now manually pull lift arm up to remove oil from around lift ram. Push lift arm back down.
3. Remove two filter plugs and remove and clean filters in kerosene. Collapsed filters should be replaced.
4. Refill pump using low temperature plow fluid to within 1-½" from top.
5. Operate plow up-down and left-right a few times and recheck fluid level with lift ram all the way down.

• See box below

## For E-47 units without drain plug

You will need an old hose, adapter and a spare female coupler

1. Purchase correct adapter.  
Part #47191 if you use 5/8" wrench to remove plugs.  
Part #47192 if you use 11/16" wrench to remove plugs.
2. Install female coupler on end of hose. Other end of hose can be cut off leaving it about 24" long.
3. With ram in down position, remove filler plug from top of pump and then remove plug and filter that is closest to the valve body.
4. Install adapter with male coupler into this filter hole.
5. Connect hose with female end of coupler to the adapter and hold other end in empty bottle.
6. Have a partner operate the pump from inside the truck. (See our part 155-9485 for a 'one-man-operation' using remote switch harness). Fluid will be expelled into the bottle.

**CAUTION: Do not run pump for an extended amount of time without fluid in it.**

7. Now manually pull lift arm up to remove oil from around lift ram. Repeat step 6.
8. Push lift arm back down.
9. Remove other plug and filter and clean both in kerosene. Collapsed filters should be replaced.
10. Refill pump using low temperature plow fluid to within 1-½" from top.
11. Operate plow up-down and left-right a few times and recheck fluid level with lift ram all the way down.

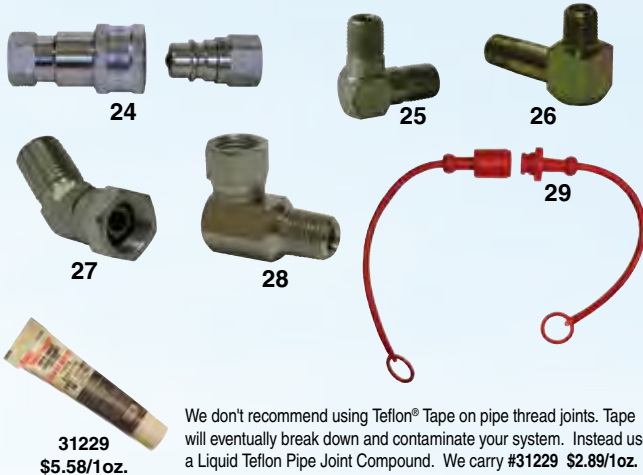

## NOTE

- If your unit has never been serviced or has the incorrect fluid in it, it should be rebuilt to insure that all old fluid is out.
- E-47 units hold about ¾ of a quart of fluid. E-60 units hold about 1-¾ quarts
- Angling rams when emptied hold an additional ½ quart.

*See Meyer Section for  
Pump Parts*

**Many new style Diamond® Plows use Meyer® Pumps for replacement pump parts see pages 20-27.**

## Quick Mount Plow Carts

### Bring your plow to the truck!

The Quick Mount Plow Cart's simple T-design and casters, make the removal of your plow easy and effortless. You no longer need to lift or try to drag around the plow. Plus, by being able to remove your plow in minutes, you can save the life of your truck by stopping the wear and tear of having the plow on during normal everyday use! Easy to assemble, easy to store, and easy to take with you wherever you may need it. Some units incorporate a small hydraulic jack to help in aligning plow.

PART NO.	PLOW	PRICE
1 153-0338	UltraMount without backdrag	\$502.50
2 153-0337	UltraMount -V	\$569.95
3 153-0330	SuburbaniteTM with Jack	\$569.95
3 153-0330	UniMount	\$569.95

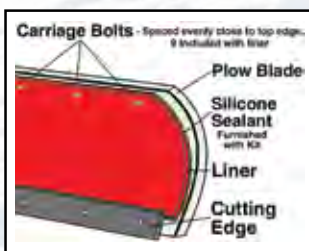

## Non-Stick Poly Snow Plow Liner

### NON-STICK POLY SNOW PLOW LINER

For Thermoplastic Snow Deflectors  
See page 9

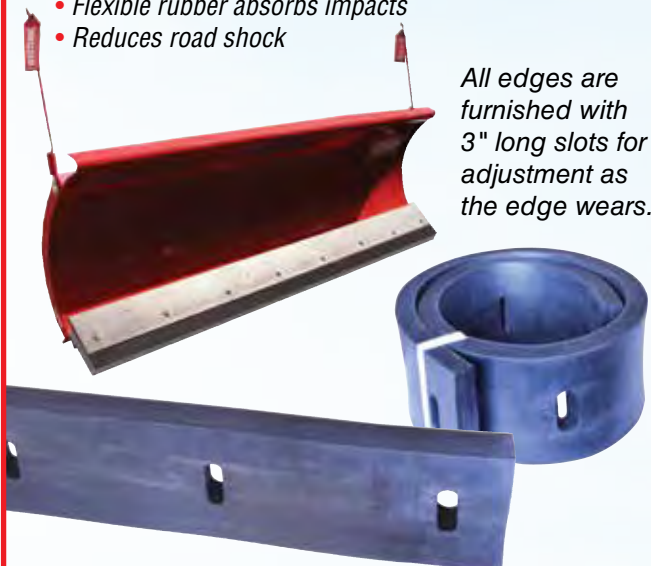

- Red Non-Stick Liner
- One size - 96" x 28"
- Trims easily with aviation snips or sharp knife
- Includes 9 top-edge mounting fasteners and silicone sealant
- Your plow will look new again

153-9630 Red Plow Liner, 96" x 28" \$62.95

## Rubber Cutting Edges for Standard & Pro Blades

### Benefits:

- Cleans slush thoroughly
- Offers great abrasion resistance
- Eliminates rust stains on cement
- Ideal for lighter snow clearing
- Conforms easily to sensitive surfaces
- Stops damage to brick pavers & cobblestone
- Flexible rubber absorbs impacts
- Reduces road shock

All edges are furnished with 3" long slots for adjustment as the edge wears.

Rubber cutting edges include a bolt & nut mount kit.

## Hoses and Fittings

JIC = Hose with swivel 9/16-18 threaded ends

31229  
\$5.58/1oz.

We don't recommend using Teflon® Tape on pipe thread joints. Tape will eventually break down and contaminate your system. Instead use a Liquid Teflon Pipe Joint Compound. We carry #31229 \$5.58/1oz.

## A Frame Kit

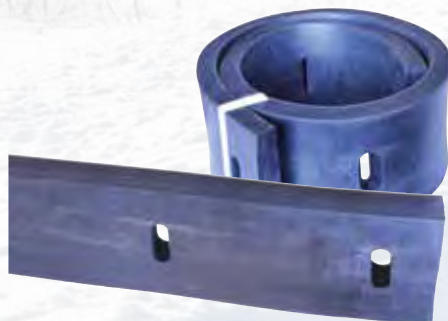

PART NO.	DESCRIPTION	REPLACES OEM#	PRICE
<b>315-1372</b>	A-Frame Kit that fits Minute Mount HD & X Plows Includes: A-Frame, 108" Chain, 1" x 6" Pivot Pin, 1/4" x 2" Cotter, (4) 3/8" nuts, (4) lock washers, (2) 3/8" U-Bolts	8627	<b>\$510.44</b>

## Rubber Cutting Edges

### Benefits:

- Cleans slush thoroughly
- Eliminates rust stains on cement
- Ideal for lighter snow clearing
- Conforms easily to sensitive surfaces
- Stops damage to brick pavers & cobblestone
- Flexible rubber absorbs impacts

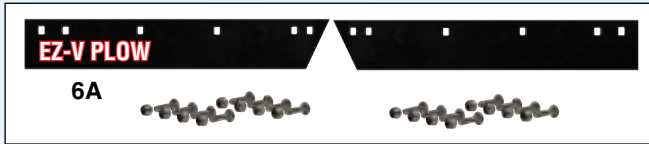

All edges are  
furnished with 3"  
long slots for  
adjustment as the  
edge wears.

## For Fisher® Plows (only fits Standard Blades)

## **CROSSOVER RELIEF & CHECK VALVES**

The Cross-Over Relief Valve protects your plow and other system components from damage whenever a circuit is overloaded. It provides relief to angling cylinders in situations when a plow may encounter obstructions.

**HCR050** Crossover Relief Valve, 10 GPM with 1/2" NPTF Ports **\$118.30**

**HCR050SAE** Crossover Relief Valve, 10 GPM with 1/2" SAE Ports **\$127.73**

**HCR075** Crossover Relief Valve, 20 GPM, with 3/4" NPTF Ports **\$220.88**

- Maximum Pressure: 3000 PSI
- Maximum Relief Pressure: 1500 PSI
- Number of Ports: 4
- Material: Cast Iron

The Double Check Valves allow you to convert a latch pin plow application to power angle plows. It is ideal for municipal plows. The valve is pilot-operated for smoother control.

**HCVD08** Double Check Valve with 1/2" NPT Ports **\$75.89**

**HCVD08SAE** Double Check Valve with 1/2 SAE Ports **\$83.84**

- Maximum Pressure: 3625PSI
- Port Size: 1/2" NPT or 1/2 SAE ORB (-8)
- Number of Ports: 2
- Maximum Flow Rate: 15 GPM
- Material: Oil Tempered Steel

## UNIVERSAL V-BOX SPREADER PARTS

### Hydraulic Spinner Motors for V-Box and Tailgate Spreaders

- Designed to be economical, efficient, compact and powerful
- Industry-proven spool valve design
- State-of-the-art gerotors
- Excellent at providing a high degree of start-up torque or correct mixture of torque rating.

#### General Specs for All Hydraulic Spinner Motors listed here

## GAS ENGINE DRIVE SALT & SAND HOPPER KITS

**Ships  
Freight**

### FEATURES

- Self-contained hopper
- 12" Poly spinner spreads sand and/or salt 2' to 30'
- 12 gauge steel side walls or double wall polymer unibody
- Steel spreaders have continuously welded seams
- Walls sloped 45° degrees for efficiency
- In-cab controls with independent variable speeds for the conveyor and spinner
- Gas Engine: 10.5 horsepower Briggs & Stratton Intek
- Engine equipped with alternator and electric start

**Spreader Kits Include: Spreader, Inverted "V" and Top Screen To order parts for these spreaders, visit us online at MillSupply.com**

The Electric Polymer SaltDogg Spreaders are completely self-contained, ultra-durable spreader units designed for ice and snow control. The rugged design allows for use with salt or salt/sand mix. The complete assembly mounts easily on pickup, dump and platform trucks, making it ideal for municipalities, industries and private contractors.

**Spread Material:** bulk salt, salt & sand mix

**Feed Mechanism:** 2-1/2" S.S. auger & trough

**Power Source:** electric

- Double-wall poly-molded hopper
- Material spread 5' to 30'
- Two 12 VDC direct drive gear motors (1/2 HP for screw type auger, 1/4 HP for spinner)
- Variable speed in-cab controller
- 2-1/2" diameter stainless steel auger and trough
- 14" Poly Spinner assembly can be easily removed for cleaning and storage
- Includes 200 lb. vibrator, top screen, tarp, tie-downs, remote auger bearing grease kit

### SPREADER MOUNTS FOR SPREADERS ON THIS PAGE

#### 332-0061 - 2" Receiver Tailgate Spreader Mount

Allows you to mount and dismount the tailgate spreaders quickly and easily. Designed to fit 2" receivers. Will work on most pick up trucks regardless of tailgate widths. **\$317.95**

#### 354-0020 - Swing-Away Spreader Mount

allows easy access to the pickup truck bed without removing the spreader. Designed with adjustable telescoping rails that accommodates any pick-up truck width. With the removal of two quick pins you can rotate the entire spreader out of the way for full bed access. **\$447.93**

#### 93-350 - Tailgate Hopper Vibrator w/80

force pounds for Buyers spreaders shown on these two pages. Buyers will void their warranty unless their vibrator is used. This vibrator fits: TGSUV1, TGSUVPRO, TGS01B, and TGS05B, SaltDogg Spreaders. **\$194.46**

## LIGHT COMMERCIAL & RESIDENTIAL TAILGATE SPREADERS

The TGSUV spreaders feature a rugged thermoplastic hopper and orange powder coated steel mount. Designed for #1 rock salt, or similar same size material.

### 4.41 CU. FT. CAPACITY

**Ships UPS**
